Panopto LTI student submission assignment- preparing and student submission

This guidance demonstrates the steps to prepare a student submission assignment using the Panopto LTI.

Begin in the Assessments tab, then click on "Assessments" and then "Assignment"

Complete the required fields, indicating to students that this is a Panopto submission in the Description box.

When fields are completed, press "Submit". The link will look like a typical Blackboard assignment:

Panopto testerooni
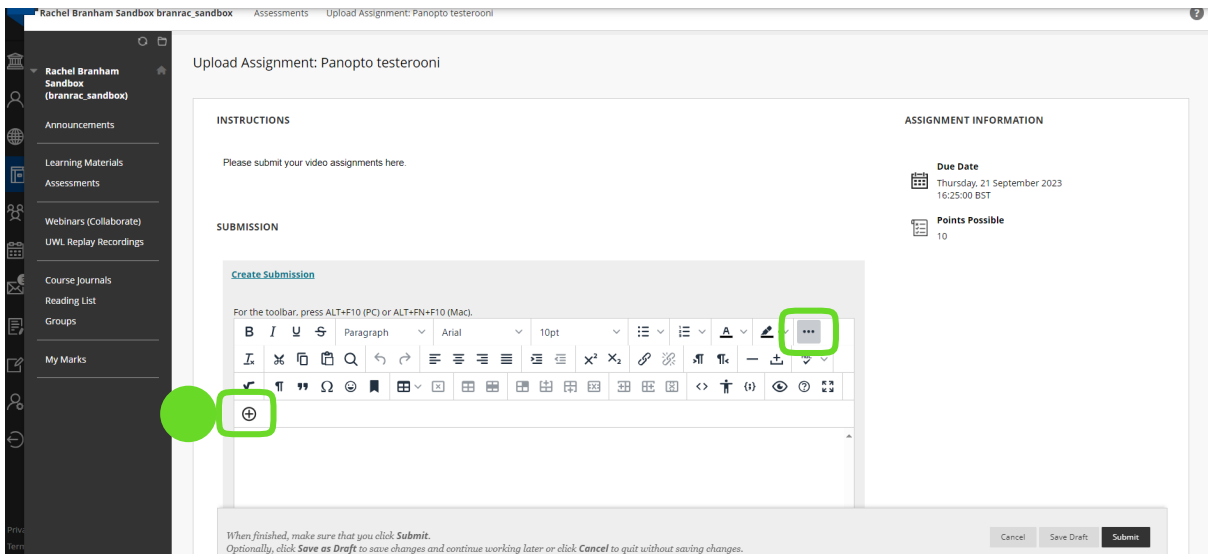

Please submit your video assignments here.

Student submission

When students are ready to submit their Panopto assignments, they click on the assessment link to be brought to the submission page. They click on "Create Submission":
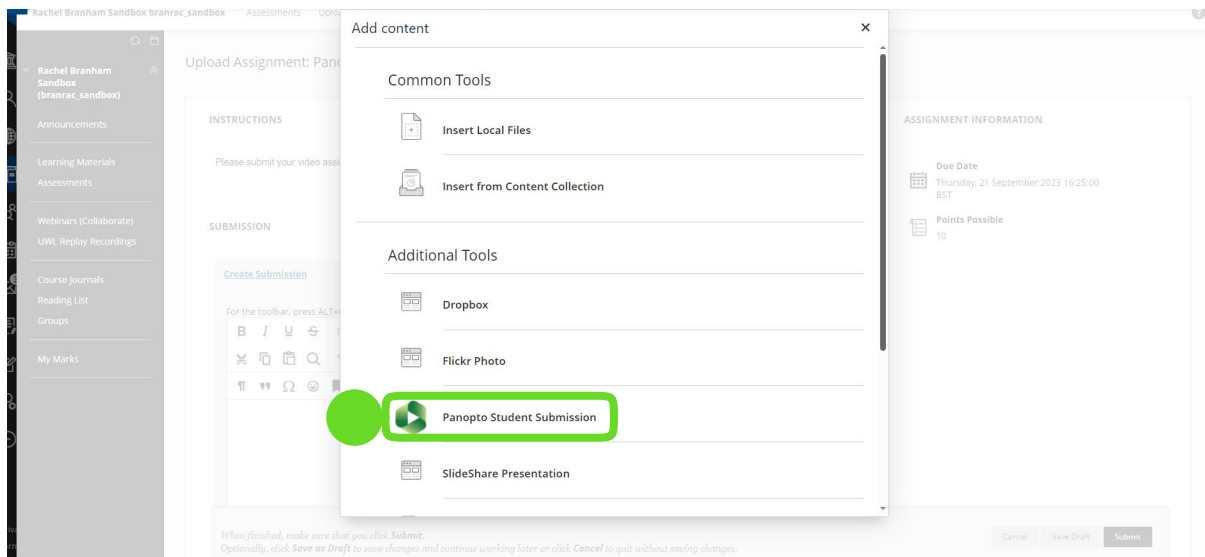

They click on "Create Submission".

In the field that appears, there is a + symbol (if this is hidden, it accessed by clicking the three dots "…")

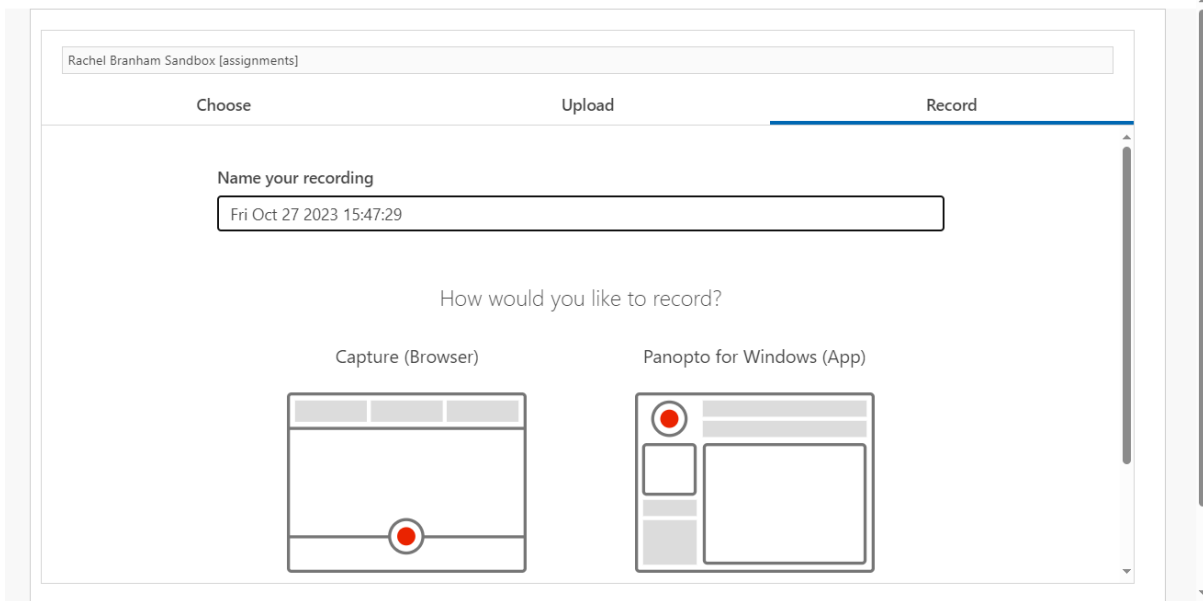

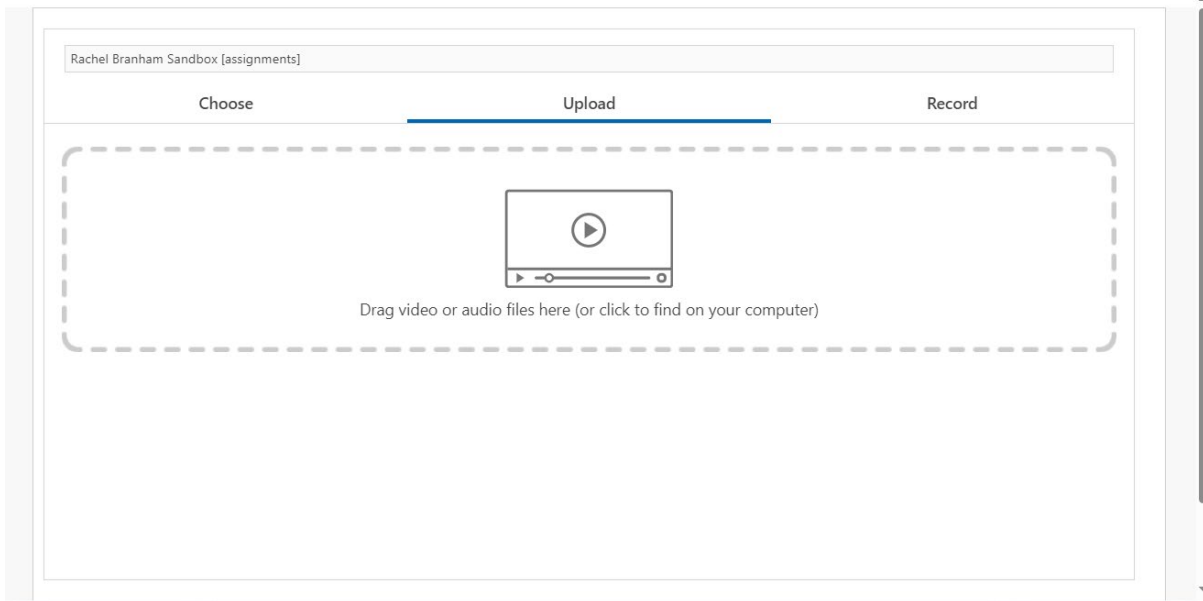

This opens a new field. Students scroll to "Additional Tools" and click on "Panopto Student Submission":

From here, students can either select a recording previously made in Panopto, upload a recording they have made elsewhere, or complete a recording using Panopto Capture right then.

Panopto Student Submission   ✕

Rachel Branham Sandbox [assignments]   ▼   Search under "Rachel Branham Sandbox [assignments]"

Choose   Upload   Record

This folder is empty

Additional information on using Panopto Capture and other questions can be found on the Panopto Support Site.

Once an option has been selected, they press "insert" and then will be brought back to the assignment submission page where the recording will be embedded:

Students then press "submit" at the bottom right corner. The assignment will appear under Needs Marking in Blackboard.
